What I Did:

More than 3 years of experience on Programming and Project implementation, I was involved in some project such as **"National Health Dashboard", "Monitoring and Evaluation system of Rohingya", "Local Health Bullentin", "Hospital and Services Management System"** for Hospital section under DGHS.

I have extensive experience on system analysis, system design, database design, web application and GIS.

At MIS, DGHS I was one of the key developer and implementer for **"Attendance System", "Complaint and Suggestion Box", "IT Equipment Management System"** of DGHS,
I have worked to implement **"Child Immunization", "Maternal Health", "Private Medical College Inspection tool", "Food Inspetion"** using **DHIS2** platform which is under National Health system MIS and Directorate General of Health Services (DGHS).
